OBJECTIVE

My objective is to leverage my strong passion in programming while contributing to a dynamic and innovative team. With a solid foundation in computer engineering and programming, I am eager to apply my skills and collaborate on real-world projects. Through this career, I aim to enhance my skill in software development. As an adaptable and quick learner, I am committed to delivering high-quality code and exceeding expectations, all while fostering a creative and collaborative work environment.

EDUCATION

BS Computer Engineering

2019 to 2023

Bicol university

• PROJECTS

2D Shooting game

Ceated a 2D shooting game using python that expands on multiple files with multiple classes using pygame module. The game also includes error handling for better gaming experience. The source code can be seen on my github profile.
